SIMPLY BRILLIANT

Make the right impression and create new stopping power

Avant-garde Digital Poster Frame

Smart, Sleek, Simple

Digital Poster Frame

ULTRASLIM
& LIGHTWEIGHT
INSTALLATION-FRIENDLY

It has been engineered with latest technologies to give it a smoother, slimmer profile. It's crafted in beautiful anodized lightweight yet durable aluminum, to make the entire poster frame weigh less than 35kg, making it more portable and easier to install.

PLUG 'N' PLAY
MEDIA PLAYER
ZERO CONFIGURATION

Enjoy the privilege of watching or screening your own video, audio or pictures playlists anytime, anywhere. All you've got to do is simply save your content on your USB or SD card and plug into your display. The easy-to-follow on-screen menu makes it absolutely easy to schedule your content and no complicated configuration is needed whatsoever!

FRONT
SERVICEABILITY
SNAPPY & EASY

You'll love the speedy convenience of doing servicing and panel module replacements from the front with just a handle magnet. Thanks to the patented cableless technology in connecting the modules.

SMART
MODULE
SMOOTH OPERATION

The futuristic Smart Module ingeniously incorporated within each system is its powerhouse. It forms the heart of every display unit and delivers powerful video processing platforms, ensuring all operations converge, thereby ensuring seamless connections like screen monitoring operations and auto-detect work continuously. In addition, the Module's pre-integrated software enables you to connect with a PC or Android devices from a single location via RJ45, WIFI, 3G, USB and HDMI. That makes it so easy to identify your display and manage settings like brightness and contrast or simply play your content directly from your device be it a laptop, tablet or smart phone.

Deliver the right message at the right time and at the right place

Portable signage solutions that bring innovation and versatility to your business communications

shopping malls

supermarkets

squares & concourses

boardrooms & control rooms

lobbies

eateries & restaurants

Wall-mounting Option
Our unique wall mountable bracket with a built-in level provides an easy and secure way to affix to the wall.

Immersive Visual Experience
Our 2.5 mm pixel pitch display is truly seamless and the absence of distracting bezels empowers you to fully exploit your impactful signage content.
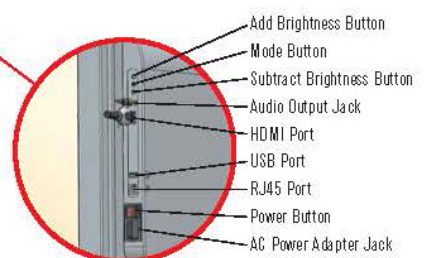

Hot Swappable Front Access Module
Another major feature is the fuzz-free speed and convenience with which you can replace its module from the front without the need to disconnect any cable by using its simple handle magnet. Better still, you can do all these while the unit is running! That highly serviceable advantage proves why Foreground's patented cableless connection technology is far superior!

Fold-out Stand
Rest assured of its sturdy support plus the discreet tuck away neatly incorporated into the groove when not used.
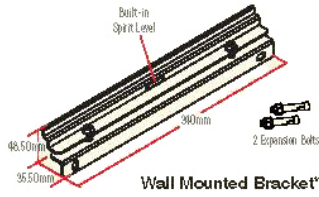

- Add Brightness Button
- Mode Button
- Subtract Brightness Button
- Audio Output Jack
- HDMI Port
- USB Port
- RJ45 Port
- Power Button
- AC Power Adapter Jack

- Slim profile (< 35mm depth) and lightweight (< 35kg).
- Integrated media player with local storage.
- No PC required, thus saves on cost, increases reliability and makes operations simpler.
- Content can be updated via network or via USB drive and the content is stored on the unit itself.

Material Parameters

Pixel Pitch	2.571 mm
Module Size	288 x 216
Display Resolution	112 x 84
LED Configuration	SMD 3 in 1
Pixel Density	169344 pixels/panel
Display Dimension (H x W X D)	1944 x 576 x 35 mm
Panel Material	Aluminum
Frame Colour	Black / Silver
Weight	35 kg
Brightness	≥1200cd/m²
Drive Mode	1/28 constant scan
Viewing Angle	160° (V) / 160° (H)
Display Colour	4.4 Trillion
Processing Depth	12 bits
Refresh Rate	> 1000 Hertz
Contrast Ratio	3000 : 1
Operation Power	AC110/240V, 50 – 60Hz
Maximum Power Consumption	600W/panel
Average Power Consumption	240W/panel
Display Mode	Asynchronous / Synchronous System
Signal Output	HDMI
Connection Type	Ethernet / WIFI / 3G
Supported VGA Mode	224 x 756
Supported Video Files	MPEG / H.264
Operating Temperature	-10° to +50° Celsius
Operating Lifetime (50% Brightness)	≥100,000 Hours
Compliance	

CE
